The World Needs A Father - Positioning fathers for proper leadership

The World Needs a Father (TWNAF) came into being in February 2011 and has as main focus the preparation and training of able men who will train others. Boys need to be prepared for manhood, young men to be fathers one day and fathers need help to provide proper leadership to their families. Fathers must be restored to their God-given place as servant-leaders of their families.

Fatherlessness doesn't discriminate. Every community faces fatherlessness. However, we believe there is a solution.

Founded on common sense and the principles for healthy family we find in the Bible, The World Needs A Father is about training communities of men to understand the value of their roles as fathers, and giving them the tools to train other men around them, so that as heaven splashes down in their home, the ripples flow through their community.

The World Needs A Father has become a global movement with men and women from over 35 countries being trained, training others and building a massive network of people intentionally moving towards restoring health to their families and communities.

If you're interested in being a part of The World Needs A Father training program please contact Percy Kennedy at pk2kennedy@gmail.com.

SPIRIT Family Camp For Teen Boys ages 13-19 living with single mothers.
